O. A. ALLEN, M. Accts., Commercial Department.

MR. A. LAGERSTROM, Conservatory of Music.

MR. ERNST HALLANDER, Janitor.

MR. S. H. RANDAHL, Manager of the Boarding Department.

Organization and Administration.

Gustavus Adolphus College is supported and controlled by the Minnesota Conference of the Evangelical Lutheran Augustana Synod of North America. The object of the institution is to provide for young men and women the opportunities of acquiring a thorough, liberal education, based upon and permeated by the principles of Christianity as confessed by the Lutheran Church; to educate teachers for public and parochial schools; to prepare young men with the ministry in view for the theological seminary. According to the constitution the school shall comprise a *Preparatory Department*, a *College Department*, a *Commercial Department*, a *Conservatory of Music*, with such other departments as the Conference may at any time establish.

The general government of the College is vested in its Board of Directors. The constitution provides that this body shall consist of not less than twelve members, one half of whom shall be clergymen, and the other half laymen. They are elected by the Conference for a term of three years, the term of office of one third of the members expiring annually.

Among the specific functions of the Board of Directors the following may be mentioned: To recommend to the conference regular and associate professors; to appoint conjointly with the president the necessary assistant teachers; to elect annually the vice-president of the school; to establish courses of study recommended by the faculty; to determine matriculation, tuition and graduation fees; to give beneficiary aid to worthy students; to recommend students to the theological seminary of the synod; to act as judges in the final examination; and to confer degrees in course and honorary.

The immediate government of the college is vested in the Faculty, the permanently elected teachers of the college constituting its voting members. The Faculty lays down such rules as are deemed necessary for the inner government of the institution, draws up the courses of study in all classes and departments, and presents them to the Board of Directors for ratification. The President of the Faculty assists the Executive Committee of the Conference in assigning work for the students during the vacation, especially in vacant congregations of the home mission field.

The following extracts from the constitution of the college have reference to the students and to the principles of administration: No student shall be admitted to the school who is under twelve years of age, and who shall not be able to pass the requirements for the lowest class. No student shall be admitted without having testimonials from one of our pastors or other responsible person, unless he is personally known to the Faculty as having a good character and studious habits. It is expected of every student that in his conversation and conduct, and in his daily intercourse, he exhibits an upright and Christian spirit; that he shows respect and obedience toward his teachers, and kindness, justice, and politeness toward his fellow students; that he conducts himself in truthfulness and righteousness, in diligence and sobriety, in obedience to law and maintenance of order, as becomes a member of a Christian college. No secret societies shall be organized or exist in the institution, nor are students permitted to be members of any secret societies whatsoever. Students are required to be present at the daily morning devotion, and are expected to attend divine services at one of the churches of the denomination with which they are connected or for which they express their preference.

Location and Buildings.

Gustavus Adolphus College is situated in the city of St. Peter on the Chicago & North-Western, and the Chicago, St. Paul, Minneapolis & Omaha Railways, about seventy-five miles southwest from the twin cities, St. Paul and Minneapolis. The city is pleasantly located in the broad valley of the Minnesota River, has a population of some four thousand, is exceptionally healthy and is supplied with an excellent system of waterworks, electric lights and other modern improvements, thus combining some of the advantages of the larger cities with the good order, freedom and sociability of the smaller cities, conditions favorable both to study and general culture.

In a campus, twenty-five acres in extent, on the western bank of the Minnesota, commanding a fine view of the Minnesota Valley and within city limits, stands a group of six college buildings. The largest in size, a substantial stone structure, contains the class-rooms of the College and Academic departments. The Commercial department is accommodated in the second story of the large brick building adjoining, the first story of which is devoted to the boarding department. The music hall contains ten rooms for practice and recitation, and connects with an auditorium which is also used as a gymnasium.

The gentlemen lodge in the main building and are under the supervision of the president; the ladies occupy separate dormitories on the grounds and are under the care of the lady principal.

Departments and Courses.

The institution offers the advantages of a liberal education under Christian influences to all, regardless of sex, nationality, or denominational preference, who comply with the conditions of admission and with the rules and regulations governing the school. The College comprises five departments.

THE COLLEGE DEPARTMENT,

THE ACADEMIC DEPARTMENT,

THE NORMAL DEPARTMENT,

THE COMMERCIAL DEPARTMENT,

THE CONSERVATORY OF MUSIC

.

The College Department.

This department offers a liberal course both in the classical and scientific subjects. The course is so arranged as to secure the best development of the mind and furnish the broadest culture and leads to the degree of Bachelor of Arts. It can be taken with Swedish, or with German as a substitute for Swedish. In the Junior and Senior years higher courses are introduced as electives in English, German, Philosophy, Mathematics, and Sciences.

The Department opens Wednesday, September 8, 1897.

REQUIREMENTS FOR ADMISSION.

All who have finished the full Academic course of the institution will be admitted into the Freshman class without examination. Persons holding certificates from State High School Boards, or certificates or diplomas from State High Schools and from approved Academies will be admitted into the Freshman class without examination in all subjects covered by such certificate or diploma. All other candidates for admission to the Freshman class are examined in the following books and subjects at the times designated in the College calendar, or at special examinations.

CLASSICAL COURSE WITH GERMAN.

- ENGLISH—1. Grammar and correction of specimens of English, faulty in diction or construction.
2. Questions on the subject-matter of passages taken from the required reading for the year.

3. A short essay, correct in spelling, grammar, punctuation, division into paragraphs, upon a subject taken from one of the following books: Hawthorne's *Twice-Told Tales*, Irving's *Tales of a Traveller*, Longfellow's *Evangeline* or *Hiawatha*, Shakespeare's *Merchant of Venice* and *As You Like It*, Scott's *Lady of the Lake*, Franklin's *Autobiography*, Macaulay's *Life of Samuel Johnson*, and George Eliot's *Silas Marner*.

HISTORY—United States History (Fiske or equivalent); Oriental History (Myers).

GEOGRAPHY—Physical (Maury), and Political (Frye or equivalent).

CIVIL GOVERNMENT—(McCleary or equivalent).

MATHEMATICS—Arithmetic, including the Metric System.

Algebra: To Series (Wells' University).

Geometry: Plane (Wells or equivalent).

SCIENCE—Physics (Gage's Elements, or Shaw, or equivalent).

Physiology (Walker or equivalent).

LATIN—Grammar (Harkness).

Cæsar: Commentaries, three books.

Virgil: *Æneid*, five books.

Cicero: Five Orations.

GREEK—Grammar (Goodwin).

Reader and Xenophon's *Anabasis*, Book I.

BIBLE KNOWLEDGE—Biblical History, Biblical Geography.

CLASSICAL COURSE WITH SWEDISH.

The requirements are the same as above, with the following:

SWEDISH—1. Grammar (Sunden), Orthography and Reading.

2. Questions on the subject matter of passages taken from the required reading for the Third class.

3. A short essay, correct in spelling, grammar, punctuation, and division into paragraphs, upon a subject taken from: (a) Runeberg, *Fänrik Ståls Sägner*; (b) *Älfskyttarne*, *Hanna*, *Julkvällen*; (c) Tegner, *Frithiofs Saga*; (d) Kellgren, *Gustaf Vasa*, or equivalent.

Orations during Fall Term.

The Academic Department.

This department proposes to prepare students for entering college as well as to provide a measurably complete course for such students as desire to go no further. It embraces a three years' course in the common branches.

Candidates for admission to the First class of the Academic department at the beginning of the school year must have a thorough knowledge of Arithmetic through common and decimal fractions and compound numbers, Elements of Geography, and of English Grammar to Syntax.

The Department opens Wednesday, September 8, 1897.

The Normal Department.

This department is designed to fit students for the profession of teaching in the public and parochial schools. The course embraces four years, much time and attention being devoted to the common school branches. In order to teach well, a student ought to have mastered the branches he is called upon to teach. Those desiring to teach only in the public schools are not required to take the Swedish studies.

Any one passing a satisfactory examination in all the subjects of the four years' course will receive a certificate to that effect.

The conditions for admission are the same in this as in the Academic department.

The Department opens Wednesday, September 8, 1897.

COURSES OF STUDY.

FIRST CLASS.

	Term.	
	Fall	Sp'g
<i>English</i> —Grammar (Maxwell), Elementary Composition.....	3	3
Reading and Orthography	3	2
<i>Swedish</i> —Grammar (Sunden)	3	2
Reading (Folkskolans Läsebok), Orthography.....	2	3

Departments of Instruction.

PHILOSOPHY.

DR. J. S. CARLSON.

This course embraces LOGIC, PSYCHOLOGY, and HISTORY of PHILOSOPHY. The object is not simply to present the principles of any particular system as such, but to select and present whatever serves to develop the mind of the student and teaches him to know himself, which is the great end and object of all philosophical study.

SOPHOMORE—Logic with attention paid chiefly to pure or formal logic, taught, however, not as an end but as a means to enable the student to think for himself. Recitations and lectures. Text-book, Hyslop.

Fall term, forty-five hours. Spring term, thirty-six hours.

JUNIOR—Outlines of Physiological Psychology. Recitations and lectures. Text-book, Ladd.

Fall term, forty-five hours. Spring term, fifty-four hours.

SENIOR—History of Philosophy, lectures and recitations supplemented by collateral reading. Text-book, Weber.

Fall term, sixty hours. Spring term, sixty-four hours.

JUNIOR—*Elective Course*—Psychology. The regular course together with Sully's Teacher's Hand-book of Psychology, or Porter's Elements of the Human Intellect, or Bain's Mental Science.

Fall term, thirty hours.

Logic. The regular course together with the works on Logic by Mill, or Lotze, or Drobisch.

Spring term, thirty-six hours.

SENIOR—*Elective Course*—The regular course in History of Philosophy together with a more thorough study of the system of Plato, Aristotle, Descartes, Locke, Leibnitz, or Kant; or a critical examination of one of their works.

Fall term, thirty hours. Spring term, thirty-two hours.

RELIGIOUS INSTRUCTION.

DR. M. WAHLSTROM.

Since it is the aim of Gustavus Adolphus College to give a liberal Christian education, Biblical instruction forms an important feature of the curriculum in all departments.

FRESHMAN—Church History illustrating the struggles, victories, and vicissitudes of the Christian Church.

Fall term, thirty hours. Spring term, thirty-six hours.

SOPHOMORE—Acts of the Apostles in the Greek with special reference to the progress of the Gospel in Apostolic times.

Fall term, fifteen hours. Spring term, eighteen hours.

JUNIOR—The fundamental doctrines of Christianity as set forth and confessed by the Lutheran Church.

Fall term, thirty hours. Spring term, thirty-six hours.

SENIOR—Christian Evidences according to Fisher and others; Rational Theism or Theistic Evidences according to Valentine. Lectures and recitations.

Fall term, thirty hours. Spring term, thirty-two hours.

FIRST CLASS—*Academic and Normal Departments*—Bible History, Old and New Testament in outline together with Luther's smaller Catechism.

Fall term, thirty hours. Spring term, thirty-six hours.

SECOND CLASS—Bible Study including the miracles, parables and discourses of Christ as set forth in the four Gospels of the New Testament.

Fall term, fifteen hours. Spring term, eighteen hours.

THIRD CLASS—Biblical Geography according to Hulbert together with Biblical Antiquities.

Fall term, thirty hours. Spring term, thirty-six hours.

LANGUAGES.

ENGLISH.

PROFESSOR A. C. CARLSON.

The course in English has a three-fold aim :

(1) To teach the student correctness, fluency, and power in the use of English, spoken and written.

(2) To teach the student to think the thoughts of the greatest English writers, and to introduce him to the historical study of English literature. While the language is studied from the historical point of view, and the parallel work in Anglo-Saxon is drawn upon for illustration as far as practicable, all etymological and grammatical explanation is made tributary to the study of Shakespeare's thoughts and characters.

(3) To give to the student a knowledge of the history and philology of the English language. This part of the course is made elective.

FRESHMAN—Formal Rhetoric ; History of English Literature (Painter) ; a critical study of authors : Irving, Dickens, Scott ; essay work.

Fall term, thirty hours. Spring term, seventy-two hours.

SOPHOMORE—Trench on the Study of Words ; Milton's Paradise Lost, Comus, Lycidas, Il Penseroso ; selections from Cowper, Goldsmith, Pope, and Browning ; essay work.

Fall term, thirty hours. Spring term, fifty-four hours.

JUNIOR—Six plays of Shakespeare : Julius Caesar, Othello, Macbeth, Hamlet, Richard III., Coriolanus ; Spenser's Faerie Queene ; essays.

Fall term, forty-five hours. Spring term, thirty-six hours.

SENIOR—Philological study: Life and Growth of Language (Whitney); Critical Survey of American Literature (Richardson); orations.

Fall term, thirty hours. Spring term, thirty-two hours.

JUNIOR—*Elective Course*—Anglo-Saxon Grammar and Elene throughout the year.

Fall term, thirty hours. Spring term, thirty-six hours.

SENIOR—*Elective Course*—Chaucer's Canterbury Tales; Ormulum; Vision of Piers the Plowman.

Fall term, thirty hours. Spring term, thirty-two hours.

FIRST CLASS—*Academic and Normal Departments*—Grammar; authors both for reading exercise and study: Hawthorne's Tanglewood Tales, Lamb's Tales from Shakespeare; orthography.

Fall term, ninety hours. Spring term, ninety hours.

SECOND CLASS—English Grammar, completed; English Composition (Welsh); study of Authors: Irving's Sketch-book, Franklin.

Fall term, seventy-five hours. Spring term, ninety hours.

THIRD CLASS—History of American Literature (Pattee); selections from Longfellow, Lowell, Whittier, Bryant, and Tennyson; essays.

Fall term, forty-five hours. Spring term, fifty-four hours.

SWEDISH.

PROFESSOR K. A. KILANDER.

Swedish is made an important study throughout the course from the lowest class up. For linguistic culture the study of the Swedish can with propriety be compared with the study of any of the Germanic languages. It is a strong, flexible, and sonorous language, and has a rich and noble literature. For the education of our people the study of Swedish is necessary, as Swedish speaking ministers, teachers and business men will always be in demand. As a practical knowledge of Swedish is native to most of the students, the aim of the course is to correct such errors as may have crept into the student's speech, to enable him to speak and write the language with precision, and to acquaint him with the riches of Swedish literature. Declamations, essays, and orations are required throughout the course.

FRESHMAN — History of Literature to 1809; selections from standard authors are studied with the view of imparting a general knowledge of the literature itself; "Prosastil" or rhetorical analysis of the requirements and characteristics of the different kinds of style.

Fall term, thirty hours. Spring term, thirty-six hours.

SOPHOMORE — History of Literature from 1809 to the present time; selections from the great masterpieces both of this and the foregoing period; Synonyms of Dalin.

Fall term, forty-five hours. Spring term, thirty-six hours.

JUNIOR—Runeberg's epic and dramatic works; a practical study of the higher art of Swedish composition according to Lyth.

Fall term, thirty hours. Spring term, fifty-four hours.

SENIOR—Norse Mythology; the poetic Edda; Tegner's works, especially "Frithiofs Saga" and his orations.

Fall term, thirty hours. Spring term, thirty-two hours.

FIRST CLASS—*Academic and Normal Departments*—Grammar, etymology, and the elements of syntax with constant applications in the parsing of words and analysis of sentences; reading; orthography.

Fall term, seventy-five hours. Spring term, ninety hours.

SECOND CLASS—Grammar thoroughly reviewed and completed; reading; orthography.

Fall term, sixty hours. Spring term, seventy-two hours.

THIRD CLASS—"Stilistik" or the Art of Composition; Prosody; Elements of Literature; Runeberg, "Fänrik Ståls Sägner"; orthography.

Fall term, forty-five hours. Spring term, fifty-four hours.

LATIN.

PROFESSORS J. SANDER, J. A. YOUNGQUIST.

Latin has always held a prominent place in a classical course and nothing which can be successfully used as a substitute has yet been found. In view of this fact our institution devotes considerable time and attention to the study of Latin both in the College, Academic, and Normal departments. The aim of the course is to familiarize the student with the language, its literature and its philological value. Mythological references are explained and etymologies, synonyms, and the infusion of words from the Latin into the English vocabulary receive constant attention. Reading at sight is a frequent exercise.

FRESHMAN—The historical works of Livy ; Odes and Epodes of Horace together with prosody ; Latin composition.

Fall term, sixty hours. Spring term, seventy-two hours.

SOPHOMORE—Select Epistles of Cicero ; Satires and Epistles of Horace ; Latin composition.

Fall term, sixty hours. Spring term, fifty-four hours.

JUNIOR—Selections from the works of Tacitus or Pliny ; Cicero, *De Oratore*, or *De Amicitia* and *De Senectute* ; history of Roman literature.

Fall term, forty-five hours. Spring term, fifty-four hours.

SENIOR—Selections from the plays of Plautus or Terence ; selections from the works of Quintilian, Juvenal, or Seneca.

Fall term, thirty hours. Spring term, thirty-two hours.

FIRST CLASS—*Academic and Normal Departments*—Grammar and Reader.

Spring term, fifty-four hours.

SECOND CLASS—Cæsar, *De Bello Gallico*, three books ; Virgil, *Æneid*, two books ; Grammar, Bennett.

Fall term, seventy-five hours. Spring term, ninety hours.

THIRD CLASS—Virgil, *Æneid*, three books ; Cicero, five Oration ; Grammar, Harkness.

Fall term, sixty hours. Spring term, seventy-two hours.

GREEK.

DR. M. WAHLSTROM AND PROFESSOR I. M. ANDERSON.

The College believes in the study of the Greek, both as an invaluable discipline of the mind, and an indispensable foundation for a scholarly knowledge of the languages and literatures of the ancient and the modern European world. If the Grecian states can be called the Master States of the World, the Greek language shares their glory.

FRESHMAN—Selections from Xenophon ; Greek composition ; Grammar. Text-books, Goodwin's Grammar, White's Composition.

Fall term, sixty hours. Spring term, seventy-two hours.

SOPHOMORE—Homer, Iliad ; Homeric etymology and construction ; scanning of Greek verse ; Grecian Antiquities.

Fall term, sixty hours. Spring term, seventy-two hours.

JUNIOR—Plato, Apology and Crito, or Gorgias ; Demosthenes, Philippias ; easy Greek at sight.

Fall term, sixty hours. Spring term, seventy-two hours.

SENIOR—Demosthenes, De Corona or Aeschines vs. Ktesiphon ; Sophocles, Antigone, or Philoctetes.

Fall term, forty-five hours. Spring term, forty-eight hours.

THIRD CLASS—*Academic Department*—Grammar and Reader ; selections from Xenophon's Anabasis. Text-book, White.

Fall term, forty-five hours. Spring term fifty-four hours.

GERMAN.

PROFESSOR J. SANDER.

The German is optional for those students who take the Swedish course; for all others who wish to graduate, it is obligatory. The course comprises two years (Freshman and Sophomore) with the privilege of making it an elective during the Junior and Senior years. It is taught both as a living tongue to be used as a medium of communication, and as a classical store-house containing wealth of literary, scientific, and theological material. From the beginning the student is encouraged to write and speak the language. Reproduction in German of the text read is required throughout the course. Selected works of the great authors are read and studied and an opportunity is afforded the student to acquire a general familiarity with German literature.

FRESHMAN—Grammar and Reader. Text-book, Otis.

Fall term, forty-five hours. Spring term, fifty-four hours.

SOPHOMORE—Schiller, Jungfrau von Orleans; selections from other standard authors.

Fall term, forty-five hours. Spring term, fifty-four hours.

JUNIOR—*Elective Course*—Selections from German history; history of the German language and literature.

Fall Term, thirty hours. Spring term, thirty-six hours.

SENIOR—*Elective Course*—Selections from scientific, philosophical, and theological German.

Fall term, thirty hours. Spring term, thirty-two hours.

HISTORY, GEOGRAPHY AND POLITICAL SCIENCE.

DR. J. S. CARLSON AND PROFESSOR J. A. EDQUIST.

The instruction in these subjects is designed to be as thorough and complete as possible. The object of the course is not only to familiarize the student with the general facts, but also to call his attention to their inner connection and development. Much attention is therefore given to the causes and results of the chief events in the history of the world and to the progress of civilization in general. In the College department the required study aims at a fairly comprehensive knowledge of General History. History is here, however, treated not as a biography of rulers and an enumeration of their vices and follies, but rather as a biography of the human race; and prominence is given to such facts and principles as have tended to make men better, wiser and happier. Particular attention is given to those periods which are closely connected with the history and literature of our own country. In the Academic and Normal classes the history, geography and government of the United States are studied. A brief course in Swedish and Oriental history is also given. In connection with the study of text-books, with accompanying remarks and suggestions from the teacher, lectures are given, and topics for collateral reading assigned. The work throughout is facilitated by a full supply of maps and charts.

FRESHMAN—*The History of Greece and Rome*—The former includes a study of the constitutional changes and the colonization, the growth of Sparta and Athens, the Macedonian Empire, and the literature, philosophy and art; the latter the early forms of government, the civil dissensions, the early and the later empires down to the final disruption in 476.

Fall term, forty-five hours. Spring term, fifty-four hours.

SOPHOMORE—*Mediæval History from 476 to 1492*—The course covers the migrations and settlements of the Teutonic tribes, their conversion to Christianity and fusion with the Latins; the Roman Empire, the Saracens, the Northmen; the Papal power, Feudalism, Chivalry and the Crusades; the Revival of Learning and the formation of national governments and literatures.

Fall term, thirty hours. Spring term, fifty-four hours.

JUNIOR—*Modern History*—The principal topics are: The Reformation in Germany; Spain under Charles V. and Philip II.; the Tudors and the English Reformation, the Dutch Republic; the religious wars in France and Germany, and the growth of political freedom in England, France, Germany and Italy.

Fall term, thirty-five hours. Spring term, fifty-four hours.

SENIOR—*Political Economy*—A general view of the principles and laws of Political Economy, together with a more thorough and careful study of some of the practical, economic problems of the day, such as the relation between Capital and Labor, the Tariff Question, Money Systems, Banking and Railroads.

Text-book recitations, lectures, and supplementary reading. Text-book, Perry.

Fall term, thirty-five hours. Spring term, fifty-four hours.

FIRST CLASS.—*Academic and Normal—History of the United States*—The course includes a careful study of the aborigines, the discoveries and colonization; the Revolution and the Federal Union from 1789 to the present time. Text-book, Fiske.

Fall term, sixty hours, Spring term, seventy-two hours.

Political Geography—Descriptive and comparative. Special attention is given to the United States and Europe. Study of maps and charts. Map drawing. Text-book, Frye.

Fall term, forty-five hours. Spring term, fifty-four hours.

SECOND CLASS—*Swedish History*—The course covers the three eras of the history of Sweden, the period since 1521 occupying most attention. The study of the geography of the country is a special feature. Text-book recitations and collateral reading. Text-book, Odhner.

Fall term, thirty hours. Spring term fifty-four hours.

THIRD CLASS—*Civil Government*—A study of Municipal and State Governments with special application to Minnesota. The Constitutional Principles of our National Government and its practical workings are carefully studied. Text-book, McCleary.

Fall term, forty-five hours.

Oriental History—The Eastern nations, including Ancient Egypt, the Chaldean, Assyrian and Babylonian Monarchies; the Hebrews and the Phoenicians; Lydia and the Persian Empire. Text-book, Myers.

Spring term, fifty-four hours.

MATHEMATICS.

DR. J. P. UHLER AND PROFESSOR INEZ RUNDSTROM.

The course in Mathematics is designed to be practical and thorough, to prepare the student for the general duties of life, to fit him for an intelligent study of the physical sciences, and to develop clear and accurate reasoning.

FRESHMAN — Higher Algebra from Series to the completion of the subject; Geometry with special attention to the demonstration and solution of original problems and propositions, and the discussion and application of the theory of limits.

The Normal students cover the whole of Plane and Solid Geometry, giving much attention to original work and best methods of demonstrating, and also the whole of Higher Algebra. Text-books, Wells.

Fall term, Algebra, sixty hours. Spring term, Geometry, ninety hours.

SOPHOMORE—Trigonometry and Surveying, much time being devoted to the solution of practical problems involving trigonometrical functions. After a proper foundation is laid in Plane Trigonometry the student is constantly exercised in its applications to surveying. Field work is required, and the student is made acquainted with the use of the transit and other necessary instruments. Surveys are mapped and the areas computed.

Fall term, sixty hours.

JUNIOR—*Elective Course*—Conic Sections and Analytical Geometry.

Fall term, thirty hours,

SENIOR—*Elective Course*—Calculus.

Fall term, thirty-two hours.

FIRST CLASS—*Academic and Normal Departments*—Written Arithmetic from Percentage, covering the applications of Per-

centage—Interest, Profit and Loss, Commission, Brokerage, Discount, Taxes—Ratio and Proportion, Involution and Evolution, Mensuration and the Metric System; Mental Arithmetic receives separate and distinct attention. Text-books, Brooks.

Fall term, seventy-five hours. Spring term, ninety hours.

SECOND CLASS—Review of Written and Mental Arithmetic during the Fall term; Algebra to Involution during the Spring term. Text-books, Brooks and Wells.

Fall term, seventy-five hours. Spring term, ninety hours.

THIRD CLASS — Algebra during the Fall term to Series; during the Spring term Plane Geometry. Text-book, Wells.

Fall term, seventy-five hours. Spring term, seventy-two hours.

PHYSICAL SCIENCES.

DR. J. P. UHLER.

PHYSICS.

As a laboratory course of the Elements of Physics is required for entrance into College, advanced Physics in the College course is obligatory only during the Spring term of the Sophomore year.

SOPHOMORE—The course covers the following subjects: Hydrostatics, Hydro-dynamics, Pneumatics, Acoustics, Optics, Heat, Electricity, and Magnetism. Every topic is illustrated and investigated with experiments and mathematical discussion.

Spring term, seventy-two hours.

JUNIOR—*Elective Course*—Students having taken during the Fall term Junior Elective Mathematics, may during the Spring term elect the study of Mechanics.

Spring term, thirty-six hours.

THIRD CLASS—*Academic and Normal Departments*—The Elements of Physics with accompanying experiments for illustration and elucidation of the underlying principles and laws is taken in this class as an introductory course to Advanced Physics. Text-book, Shaw's Elements.

Fall term, thirty hours. Spring term, thirty-six hours.

CHEMISTRY.

JUNIOR—A course in General Chemistry is pursued during the Spring term with the aid of lectures, experiments, and the study of a text-book. The Laboratory is equipped with tables and apparatus for individual work in Chemistry. The general principles of this science are acquired by experimental work carried on as far as possible by students themselves under the guidance and supervision of the teacher. Text-book, Shepard.

Spring term, fifty-four hours.

ASTRONOMY.

SENIOR—The course is introduced by a brief study of Uranography, lessons being assigned for evening recitations during two weeks of September and afterwards followed up by one monthly recitation on the same subject. The course besides the above embraces the "Doctrine of the Sphere," the determination of Latitude, Longitude, Time; a study of the Astronomical instruments; Solar System and accompanying phenomena; Celestial Mechanics; and a discussion of the Nebular Hypothesis in connection with the study of the Stellar universe. The study is facilitated by the use of planispheres, charts, maps, and an achromatic telescope.

Fall term, forty-five hours.

ELECTIVE COURSE—Practical Astronomy.

Spring Term, thirty-two hours.

NATURAL HISTORY.

PROFESSOR J. A. EDQUIST.

BOTANY.

FRESHMAN—*Structural and Physiological Botany*—The instruction is given by means of lectures and text-book recitations, and the subject is illustrated by the use of microscopes and laboratory work. During the spring term one hour a week is devoted to Systematic Botany. The flora of Minnesota is rich in material for class work, and each student is required to prepare a herbarium as a part of his work. Text-book, Gray.

Fall term, thirty hours. Spring term, eighteen hours.

ZOOLOGY.

JUNIOR—*Structural and Systematic Zoology*—The work consists of text-book recitations, supplementary reading, and dissection of typical forms. In Structural Zoology the work is largely comparative, and comprises a study of the blood, the vascular mechanism, the muscles, nutrition, respiration, the metabolic phenomena, and the nervous system, including a careful study of the organs of the special senses. The collections of alcoholic and mounted specimens in the Museum are used for illustration, and the microscopes furnish valuable aid in the dissection of tissues. Special attention is given to the study of insects, and each student is required to collect and classify from seventy-five to a hundred specimens during the year. Orton's Comparative Zoology, and Colton's Practical Zoology are used as texts.

Fall term, forty-five hours.

SECOND CLASS. *Academic and Normal Departments*—*Human Physiology*—The subject is presented in as practical a way as possible by the aid of experiments, microscopic slides, sketches

and manikins. The muscular, digestive, circulatory and nervous systems receive special attention. In connection with the study the laws of health are duly emphasized. Text-book, Walker.

Fall term, sixty hours.

GEOLOGY.

SENIOR—*Dynamical, Structural, and Historical Geology*—The student is directed to the origin and history of stratified rocks, and to the forces and agencies which have produced geological changes. The most common rocks and their constituent minerals are carefully studied, the collections in the Museum being constantly drawn upon for illustration. Some of the more important and interesting fossils are especially studied, and the history of the characteristic groups of plants and animals is followed through the different rock systems. The field work is necessarily confined to the deposits of the Glacial Epoch, and to the Palæozoic series, as represented in the Minnesota and Mississippi valleys. Frequent class excursions are made and the students are encouraged to collect cabinets of their own. Text-book, LeConte.

Spring term, sixty-four hours.

SECOND CLASS. *Academic and Normal Departments—Physical Geography*—The course includes a study of the physical features of the earth's surface, with its land and water areas, the phenomena of winds, tides and ocean currents, the distribution of plants and animals as determined by soil, climate, and food, and the relation existing between physical conditions, and the life, and growth of nations. Text-book recitations, study of maps and charts, map drawing. Text-book, Maury.

Spring term, seventy-two hours.

PEDAGOGICS.

PROFESSOR J. A. YOUNGQUIST.

As one of the leading objects in founding this institution was to educate teachers, we offer to all who desire to devote more or less time to this noble calling, certain professional studies in addition to the regular curriculum. The subjects are obligatory in the Normal, and optional in the Academic department. Besides this, the most approved methods of instruction have been adopted, every teacher being thus indirectly, by example, an instructor in right methods of teaching.

SECOND CLASS—School Economy or School Management, giving the most approved methods for organizing, conducting, and disciplining a school, is studied during the Fall term; Methods of Teaching the various branches and the underlying pedagogical principles is taken up during the Spring term. Text-books, Wickersham and Brooks.

Fall term, forty-five hours. Spring term, thirty-six hours.

THIRD CLASS—Methods of Teaching continued and finished; Elementary Psychology with special application to the art of teaching.

Fall term, thirty hours. Spring term, thirty-six hours.

FOURTH OR FRESHMAN—History of the Educational Systems of the Oriental Nations, of Ancient Greece and Rome, of the Middle Ages, of the Modern Age. Text-book, Painter.

Fall term, thirty hours. Spring term, thirty-six hours.

PENMANSHIP.

PROFESSOR O. A. ALLEN.

Penmanship is taught in the Preparatory and the First class on the class plan by the instructors of the Commercial department, according to the methods there in use.

Fall term, forty-five hours. Spring term, fifty-four hours.

VOCAL MUSIC.

MR. A. LAGERSTROM. MISS ANNA M. PEHRSON.

Instruction is given in this subject by the teachers of the Conservatory of Music. The sol-fa-system is followed. The course consists of note reading, sight singing, practice in the major and minor scales in sharps and flats, drill in movement, and chorus practice. Congdon's and the Normal Music Charts are used. A student of any department may, under the direction of the Faculty, take a course in instrumental music in the Conservatory.

Fall term, fifteen hours. Spring term, eighteen hours.

The Commercial Department.

PROFESSORS O. A. ALLEN, ANDREW KEMPE.

This department is designed to furnish instruction in those branches of knowledge that are indispensable to the proper management of business. The training in this department is valuable to its possessor no matter what his occupation, since we are all, to some extent, business men; but we purpose especially to qualify persons to fill positions as bookkeepers, accountants, clerks, and amanuenses.

The department has its own suitably equipped rooms, is provided with a distinct corps of teachers, and offers three courses of study: The ordinary commercial course, leading to the degree of Bachelor of Accounts; a post-graduate commercial course, leading to the degree of Master of Accounts; a shorthand and typewriting course.

The Department opens Wednesday, September 8, 1897.

WHAT WE REQUIRE AND TEACH.

IN THE COURSE FOR BACHELOR OF ACCOUNTS—Business Practice, Bookkeeping, Commercial Arithmetic, Rapid Calculations, Business Law, Civics, Political Economy, Grammar, Business Correspondence, Penmanship, Reading, and Spelling.

IN THE COURSE FOR MASTER OF ACCOUNTS—In addition to the course for Bachelor of Accounts, Elementary Algebra, Plane Geometry, Political Economy, Commercial Geography, and one year's successful work as accountant or teacher of commercial branches.

IN THE SHORTHAND AND TYPEWRITING COURSE—Shorthand, Typewriting, Penmanship, Grammar, Correspondence, Reading, and Spelling.

THE BACHELOR OF ACCOUNTS' COURSE.

This course is divided into four grades. At the completion of the work in each grade examinations are held in the different subjects studied. If a student fails in any of these examinations he will stand conditioned in such subject, and this condition must be removed before he is allowed to present himself as a candidate for graduation. When a student has completed the course, and his record is clear, he is given a final examination. The average standing of his grade examinations in a subject added to his standing in his final examination and divided by two will constitute a student's true standing in that subject, and the average of the true standings will be that upon which a student may graduate.

The object of these various examinations is to afford opportunities to students for testing their strength, stimulate them to greater exertions, and, on the part of the teacher, to avoid the embarrassing inclination toward leniency which is so liable to be felt when the student stands ready to graduate on a single examination. We believe that by our system of grading the work, and not allowing students to pass over what they have not thoroughly mastered, we have greatly improved upon the course of other similar schools, which have only one grade, and give no examination until the course is completed.

BRANCHES OF STUDY.

BUSINESS PRACTICE AND BOOKKEEPING is the most striking feature of our commercial course. As taught in our school, it gives not only a knowledge of the science of accounts, but also a vivid conception of proper business methods, familiarity with business transactions and relations of which bookkeeping is the record, an acquaintance with all the common forms of commercial papers, and develops better than any other subject of study the excellent qualities of neatness, accuracy, and self-reliance. That the work is as interesting as it is profitable will appear from the following description.

To *make* the transaction and *record* it is the governing principle of our system. For this purpose the students are formed into a commercial community and do business with each other. Every student the day he enters is provided with the necessary books and blanks and a cash capital of \$5,000 in college currency. He is then instructed to purchase goods from the wholesale house and sell to his fellow students, carefully drawing up all papers that belong to each transaction and keeping a complete record of what he does. At first the transactions are simple, and limited to but a few and simple ones; gradually they become more varied and complicated, until they embrace almost every conceivable transaction of the business world. He deposits money, orders goods, makes out bills, draws checks and drafts, gives notes, forms partnerships and writes and properly executes the articles of co-partnership, leases property and executes the lease, conveys real estate and executes the deed, and forms stock companies, drawing up the necessary papers. Every one of these transactions is recorded in suitable books, and frequent statements of the business are made and subjected to the teacher.

The department has a bank, College Bank; two wholesale houses, Merchants' Emporium and Supply House; and a retail and commission house, Commercial Exchange. When a student has arrived at a certain degree of proficiency, he is consecutively put in charge of each of these offices; first as assistant to the one in charge, then for two weeks, or longer unless he renders a correct statement, as general manager.

Every two weeks, or oftener, some student is appointed as expert accountant, whose duty it is to examine incorrect and disputed accounts, and to him is subjected for adjustment all books that do not balance.

There is in circulation in the department \$150,000 in college currency. The handling of this gives skill in counting money, making change, etc.

From the start the student is lead to depend upon himself, and soon discovers that attention to his business means success and inattention and mismanagement failure. He must constant-

ly plan to meet his maturing papers and accounts, and is forced to observe the necessity of keeping his expenses within his income. In short, during the entire course he is a business man, gaining business experience and forming business habits under the careful supervision of those who are acquainted with proper business methods and principles.

Ten hours a week are devoted to this work.

BUSINESS LAW is an indispensable part of a commercial course. It is a common error to suppose that law and the study of law is reserved for lawyers. On the contrary, to avoid trouble every man should, to some extent, be his own lawyer. All acts must conform to law, and punishment follows its violation. But how shall we conform to laws whereof we have no knowledge? Losses and vexations are attendant upon recourse to the courts, and litigation is, generally, the result of ignorance of law. A practical education must, therefore, include a knowledge of every day business laws.

Instruction in this subject is given by means of recitations in and lectures on the various topics of law relating to the nature and relations of business transactions.

Third class has two periods a week; first and second classes three periods.

CIVICS is introduced into the course as an aid to the understanding of the principles of law, and because a study of the government under which we live cultivates true patriotism and an intelligent appreciation of our free institutions. We aim to teach, not only the science of government, but by a constant non-partisan reference to important questions arising for public consideration and decision to create an interest in public matters.

Our Commercial Department library contains many valuable works on law and government, to which students have access.

Two periods a week in each class are devoted to this subject.

COMMERCIAL ARITHMETIC differs from other arithmetics in the applications of the science. It deals particularly with problems which give the student a thorough drill in the short, practical, labor saving methods actually used by business men. Since it is desirable for a business man to be able to solve problems mentally, stress is laid on mental solutions. Part of every recitation is devoted to drills in rapid calculations, embracing addition, subtraction, multiplication, division, fractions, aliquot parts, percentage, and interest.

Daily recitations.

PRACTICAL PENMANSHIP is acknowledged to be indispensable, even by those who can boast of no skill in the art. In business the demands upon the pen are constant, and the same is true in professional and social life. No matter how well one may be prepared in other branches of education, such knowledge will be of limited value, especially in obtaining employment, if not accompanied by a neat, legible, and rapid handwriting. The hand needs to be trained to readily respond to the dictates of the brain, or mental operations will be disturbed. We aim to give our pupils a style of writing suitable to the wants of a practical business man, for this will be equally serviceable to others. In short, our system of penmanship aims at rapidity, simplicity, and legibility.

Each class has daily practice.

POLITICAL ECONOMY deals with the broad principles of production, consumption, distribution, and exchange. The information furnished by this study is of great value to a business man. As this subject is part of the course for Master of Accounts, it is made elective, and no examination is required.

Lectures are given in the third class twice a week.

BUSINESS CORRESPONDENCE is a subject of which no clerk or bookkeeper, seeking to fill acceptably a position in an office, can afford to be ignorant. Clearness of expression and the ability to

prepare a neat, business-like letter are essential, not only to business men, but to any one who needs to convey thought by means of letters. Business letters consist mainly of conventional phrases. These are inculcated by the writing of numberless letters.

Each class is given two recitations a week.

GRAMMAR, as taught in this course, aims at giving a practical knowledge of the structure, and correctness in the use of the English language. A text-book especially adapted to this course is used. It aims at making the course a drill course in correct language, by constantly calling attention to and correcting common errors.

Three recitations a week in each class are given.

READING AND SPELLING are so obviously important that no special reason for their introduction into the course need be given.

Each class has two recitations in reading and two in spelling per week.

THE MASTER OF ACCOUNTS' COURSE.

This course with its degree, by giving something to work for, is intended to encourage our graduates to take up and pursue studies which, though not absolutely necessary in their line of work, have still an important bearing upon it. We do not, therefore, demand that the subjects be studied here, although we are prepared to accommodate those who so desire. The subjects may be studied elsewhere, or privately, but the examinations must be taken at our school. Any one of our Commercial graduates who stand seventy per cent in each of the subjects named above in the course of study, and has the required one year's successful work as accountant or teacher of commercial branches is entitled to and will be awarded the degree of Master of Accounts.

THE SHORTHAND AND TYPEWRITING COURSE.

Shorthand and typewriting are now not only conveniences but necessities. For many purposes the comparatively slow longhand writing is inadequate. The shorthand writer has come to be considered one of the most useful employes of the business office. A business man, having a large correspondence, can dictate to and have written by his amanuensis in an hour as many letters as he could himself answer in a day. The time thus saved can be devoted to more important matters, or spent in recreation, making business more profitable and pleasant.

SHORTHAND is the most important feature of this course. The Munson system is taught. After the student has become familiar with the characters, he is given a general outline of phonography, and then instructed in the details more thoroughly. When the principles are acquired with sufficient accuracy to write phonographically any word that might be met with, he begins to take dictations. These dictations, first slow and simple, continue during the entire course, and consist of letters, literary selections, court reporting, etc. All work is handed in to be approved; the errors are marked plainly and the work returned to the student to be correctly rewritten. The student's deficiencies are thus brought vividly before him, and the importance of absolute accuracy impressed. Daily drills are given in the reading of shorthand notes, both his own and those in specially prepared reading lessons. Special attention is given to individual instruction, thereby gaining an opportunity for discovering each pupil's peculiar difficulties and helping him over them. Speed in phonography is not different, in principle, from speed in longhand, and the qualities essential to the acquirement of the one are the same as those of the other. Study and persistent practice, with constant, intelligent attention to principles, is the road to the mastery of the art; and any one with a fair knowledge of the English language may become a good stenographer..

TYPEWRITING is principally a mechanical operation. We teach the most approved and scientific fingering. We also insist upon absolute accuracy. Every page of typewritten matter must be handed in to be corrected, and if not of a particular standard, varying with the advancement of the student, the work is returned and must be rewritten before the student is allowed to proceed. By a judicious selection of the matter to be written in practice, the work incidentally furnishes much valuable information.

THE REMAINING STUDIES OF THE COURSE are taken with the other classes of the department.

When the complete course is finished, the student will be given a testimonial or diploma. One hundred and fifteen words per minute is the required speed in shorthand, and thirty words on the typewriter.

General Information.

REQUIREMENTS FOR ADMISSION.

A common school education is required to enter this department. The more advanced, however, the better; but no one will be admitted who has not a fair knowledge of arithmetic through common and decimal fractions.

WHEN TO ENTER.

The best time to enter is in the beginning of the Fall term, or after the Christmas vacation. Students are, however, admitted at any time; but our advice to students is, prepare to begin at the opening of the school and remain the whole school year.

LENGTH OF TIME REQUIRED.

Our Commercial course is made as complete as possible, To do thorough work takes time. The day of the three months' course is gone, and no one regrets it. For those with meager preparation, the course is two years; others, well prepared educationally, can graduate in one year.

The Shorthand and Typewriting course takes six to eight months.

SESSIONS.

The daily sessions are from 8:30 to 11:40 A. M., and from 1:30 to 3:30 P. M. The rooms are open from 8 A. M. to 5 P. M. the only requirement being good order.

DIPLOMAS.

Diplomas are publicly awarded at the general commencement. Certificates of proficiency are given at any stage of the course.

CHRISTIAN ETHICS.

Once a week the president of the school gives a short lecture on moral and Christian duty. The subjects for the lectures are chosen from the Bible, the source of all true morality.

EXTRA STUDIES MAY BE TAKEN.

If so desired, arrangements can be made for taking a course in music at the same time, or for studying from one to three branches in the Academic department, or one in the College department.

BOOKS AND CHARGES.

The necessary books are kept for sale in the department at reduced rates. The cost of the books is about \$5.

The price of tuition, etc., is given under the heading expenses in another part of this catalogue.

DEPARTMENT LIBRARY.

The department has a library of its own, which is a branch of the main library. Our Commercial students are given free access not only to this but to the main library, subject to library rules.

IRREGULARITIES.

Irregularities in attendance are not permitted under any circumstances. This should be clearly understood by both parents and pupils.

No abatement in price will be made on account of absences not provided for upon entering, except in case of sickness, when due notice is given.

The Conservatory of Music.

DR. R. LAGERSTROM, DIRECTOR.

MR. A. LAGERSTROM, MISS ANNA M. PEHRSON.

The Conservatory of Music aims at the development and cultivation of musical talent in general, and affords instruction in Vocal and Instrumental Music to organists, music teachers, and amateur students of music. It offers several courses:

1. A five years' course on the Pianoforte with Theory and Harmony, Counterpoint, Orchestration and History of Music, which, taken with the literary course mentioned below, leads to the degree of Bachelor of Music.

2. A two to three years' course on the Pipe Organ, together with Theory and Harmony, which can be taken separately or together with the Normal course, in the latter case fitting a student for the position of organist and school teacher both in public and parochial schools.

3. A two years' course on the Cabinet Organ, which gives a good foundation for a successful study of the course on the Pipe Organ.

Twenty-four lessons constitute a term of music.

The Conservatory opens Wednesday, September 8, 1897.

COURSES OF INSTRUCTION FOR THE DEGREE OF BACHELOR OF MUSIC.

INSTRUMENTAL REQUIREMENTS.

PIANOFORTE.

FIRST GRADE—Beyer's, Wohlfahrt's or any good Piano School; Czerny's Op. 803, Bks. I. and II.; Koehler's Etudes, Op. 50; De Kuntske's Op. 377; Strelezki's Op. 100,

Bks. I. and II.; Burgmueller's Etudes, Op. 100; Lemoine's Etudes, Op. 37, Bk. I.; Duvernoy's Etudes, Op. 120. Selections from Krause, Clementi, Haydn, Schumann, and others.

SECOND GRADE—Technical studies by Plaidy, Heller's Etudes, Op. 46, Bks. I. and II.; Op. 47 and 50; Loeschhorn's Etudes, Op. 66, Bks. I. and II.; Czerny's Etudes, Op. 299; Doring's Op. 24; Lemoine's Etudes, Op. 37, Bk. II.; Concone's Etudes Melodique, Op. 24; LeCouppé's Op. 26. Selections from Bertini, Duvernoy, Lange, Spindler, and others. Sonatinas by Clementi, Kuhlau, Haydn, Mozart, and Raff.

THIRD GRADE—Technical studies by Plaidy continued; Beren's School of Velocity; Loeschhorn's Etudes, Opp. 66, Bk. III.; Czerny's Staccato and Legato Studies, Op. 335; Heller's Art of Phrasing; Hiller's Rhythmic Studies, Op. 52; Händel's Suits; Kalkbrenner's Etudes, Op. 20; Etudes by Bennett; Mayer, Op. 119, Bks. I. and II.; Krause's Trill studies, Op. 2; Sonatas by Mozart, Beethoven, Weber, Hummel, Brahms, Raff, and Mendelssohn. Concert selections by Chopin, Mendelssohn, Rubinstein, Liszt, Schubert, Gade, Dupont, and Scharwenka.

FOURTH GRADE—Technical Studies by Tausig; Czerny's School of Velocity; Loeschhorn's Grand Octave Studies; Concert Etudes by Chopin, Rubinstein, Liszt, Henselt, Schumann, and Cramer; Kullak's Octave Studies, Op. 48; Chopin's Etudes, Op. 10; Czerny's Etudes, Op. 740, Bks. I. and II.; Heller's Etudes, Op. 16 and 90; Haberbier's Poesies, Op. 53; Preludes and Fugues by Bach; Beethoven's more difficult Sonatas; Concerted pieces by Chopin, Mendelssohn, Rubinstein, Mozart, Hummel, Schumann, Moszkowski, Scharwenka, Raff, Schubert, Händel, Liszt, Tausig, Brahms, Von Bulow, and others.

FIFTH GRADE—Moscheles, Op. 70; Clementi's *Gradus ad Parnassum*; Cramer's *Selected Studies*, Von Bulow's Edition, Bks. III. and IV.; Scarlatti's *Selected Pieces*; Bach's 49 Preludes and Fugues, Bk. II.; Chopin's *Etudes*, Op. 25; *Concertos and Concerted Pieces* by Brahms, Reinecke, Chopin, Weber, Jaell, Bendel, Liszt, and others; also selected compositions of modern composers.

Instruction is also given in Piano tuning.

One to three recitations per week in each grade.

PIPE ORGAN.

This course may be taken separately or in connection with the course on the Pianoforte. In the latter case students may, if they so desire, substitute two years' studies in the Pianoforte course for the course on the Pipe Organ in the requirements for the Bachelor's degree. To obtain an organist's certificate the course in Theory and Harmony as outlined under Theoretical Requirements for the Bachelor's degree together with a course in vocal culture and a knowledge of church-music (chorals, anthems, etc.) and of the principles of conducting a choir, is required in addition to the course in instrumental studies on the Pipe Organ.

ORGANIST COURSE—Pedal studies; Volkmar, *Studies in Pedal Phrasing*; Buck, *Preludes*; Church Music; Chorals by Haeffner, Mankell, and others; Bach's *Preludes and Fugues* in G Maj., B Min., G Min., Sonata in F Maj., Bk. III., Mendelssohn's *Sonatas* in F Min., B flat Maj., D Min. (Peters Ed, nos. 1, 4, 6); Sonata by Hesse in A flat Maj., Op. 85; Sonata by Töpfer in D Min., Chromatische Fugue in G Min., Fantasie in C Min. by Berens; Rink's *Organ School*, Bks. I., II., IV.; Lemmen's *Organ School*, Bk. II.; *Preludes and Fugues* by Brosig; *Concertos* by Händel; *Preludes, Fugues and Concert pieces* by Merkel, Best, Guil-

mant, St. Saens, Silas, Whitney, Thiele, Reinberger, Widor, Richter, Smart, Heintze, and others. Study of the structure of the organ; also tuning and repairing.

One to two recitations per week.

*THEORETICAL REQUIREMENTS FOR BACHELOR'S
DEGREE.*

THEORY—This course consists of a discussion of the theory of music in general. Text-book, Weitzman.

One recitation per week.

HARMONY—This course consists of practice in musical notation, keys, scales, signatures, intervals, formation of chords chord-connections, harmonizing a given Cantus firmus in soprano, alto, tenor, and base, simple part-writing from given bases and sopranos both in close and dispersed position, figuration with additional exercises in reading and writing from sound, in modulations, harmonizing melodies and chorals, and in writing piano accompaniments to a given tune. Text-book, Richter's Manual.

One to four recitations per week.

COUNTERPOINT—This course covers single and double counterpoint, imitation, and canon. Text-book, Richter's Manual of Counterpoint.

Two recitations per week.

ORCHESTRATION—Arrangement for string quartette, full orchestra and chorus with orchestral accompaniment, also transpositions from piano compositions, and from piano accompaniment for songs. Text-book, Berlioz.

One to two recitations per week.

HISTORY OF MUSIC—This course consists of text-book study, lectures, recitals, and rehearsals. Text-books, Ritter's and Wade's History of Music.

One to two recitations per week.

LITERARY REQUIREMENTS FOR BACHELOR'S DEGREE.

ENGLISH—Reading, Orthography, Grammar and Elementary Rhetoric as pursued in the First, Second, and Third classes of the Academic department; *or*

SWEDISH—Grammar, Reading, Orthography, and Stilistik as pursued in the same classes.

CHRISTIANITY—Biblical or Sacred History, Biblical Geography, or an equivalent, and Church History.

PROPOSED COURSE OF INSTRUCTION FOR THE DEGREE OF MASTER OF MUSIC.

The course for this degree will be as follows:

Higher Theory of Music.

Double Counterpoint, Advanced Course.

Composition, Musical Form, Fugue written in four to six voices.

Orchestration: arranging for grand orchestra a selected musical composition, transcribing from the full orchestral score, arranging music for military band.

In addition to this a candidate for the above degree must compose a choral work as a Cantata or smaller Oratorio, the same to be arranged for solo, chorus, and orchestra; take entire charge of practices with the chorus and orchestra as well as conduct the same at the rendering of said composition before the public.

COURSE ON OTHER INSTRUMENTS.

CABINET ORGAN.

FIRST GRADE—White's and Getz's Organ Method; Classics by Beethoven, Hayden, and Mozart; easy Voluntaries; Recreation for Cabinet Organ (selected); Scales in Major keys; Chorals.

SECOND GRADE—Merz's New Method ; Classics by Händel, Schubert, and Weber ; Elliot, Bks. I. and II. ; Preludes and Voluntaries by Buxtehude, and others. Mendelssohn's Songs without Words ; scales in major and minor keys, two octaves for both hands.

VIOLIN.

COURSE—Schubert's Violin School, vols. I., II., III., and IV. ; Etudes by Kayser, Mazas, Kreutzer, Fiorillo, Rode, Gavenies, and others ; Violin Technique by Schradieck ; Duets by Viotti, Dancä, and others ; Concertos by DeBeriot, Rode, and Kreutzer ; Compositions by Wieniawski, Ernst, Vieuxtemps, and others.

Instruction is also given on the Guitar according to Carcassi's Complete Method ; on the Clarinet according to Klose's Complete Method ; on the Cornet according to Arban's Complete Method.

COURSE IN VOCAL MUSIC.

VOICE CULTURE.

ANNA M. PEIRSON.

COURSE—Exercises in Respiration, Production, and Quality of Tone ; Development of Registers ; Exercises in Scales, Turns, Trills, Legato, Staccato, Portamento, Stentato, and Martelato ; J. J. Masset, Bk. I. ; Marchesi's Exercises elementaires et grandes, Op. 21 ; Vaccaj's Practical Method of Italian Singing ; Viardot-Garcia's Daily Exercises ; Concone and Panofka ; Zollner's Exercises, Op. 50 and 51 ; Arpeggios, Solfegios, and other studies of Lablache, Bordogni, Lamperti, Aprile, and Marchesi ; easy songs of Sullivan, Cowan, Abt, Gumbert, and others.

The instruction is based upon the Italian method.

SOLO SINGING.

COURSE—Voice Culture as above. Exercises in Turns and Trills in more rapid movement; more difficult studies by Panofka, Bornaldi, Aprile, Federlein, Sieber, Garcia and others; more difficult songs from classic writers, viz.: Greig, Franz, Brahms, Rubinstein, Schumann, Mendelssohn, Schubert, and Beethoven. Arias and Cavatinas from French, Italian, and German Operas of Auber, Gounod, Donizetti, Bellini, Verdi, Rossini, Meyerbeer, Weber, Mozart, Beethoven, etc. Selections from the Oratorios, Haydn's "Creation," Gounod's "Redemption," Mendelssohn's "Elijah," Bach's "Passion Music," Händel's "Messiah," etc., etc.

DIPLOMA AND CERTIFICATE.

Those who have finished the prescribed Instrumental Course on the Pianoforte with or without the course on the Pipe Organ, together with the course of Theoretical and Literary Studies, will receive the degree of Bachelor of Music; those who have completed the Instrumental Course on Pianoforte, Pipe Organ, Cabinet Organ, Violin, and other instruments, or in the theoretical studies of Theory, Harmony, Counterpoint, Orchestration, and History of Music, or in Voice Culture and Solo Singing will receive a certificate to that effect.

GENERAL INFORMATION.

A musical atmosphere pervades the entire institution. Recitals and concerts are from time to time given. Several musical organizations, both vocal and instrumental, are maintained by the students.

A term of 24 lessons in the Conservatory of Music must be finished in 12 school-weeks with two lessons a week, or in 24 school-weeks with one lesson a week, as the student may decide at the beginning of the music term. The following reasons only

will be accepted for allowing longer time for the lessons: Sickness, absence with leave from the institution, sickness or absence of the teacher. Fewer lessons than a term will be charged at the rate established per lesson for the different grades.

Lessons lost in consequence of the pupil's absence will not be made good by the Conservatory, except as stated above.

With one lesson in instrumental music a week, a music student may without extra charge take two subjects in the Academic or College departments; with two lessons a week he is entitled to three subjects—in each case one being a religious subject. Over and above this a tuition of seventy-five cents a month is charged for every additional subject in the above named departments.

Religious instruction is obligatory for music students, unless otherwise ordered. They are expected to conform to the rules relating to deportment, etc. found elsewhere. The College library is open to music students on payment of the library fee.

The Conservatory has established a separate library of music and works on music, which is accessible to the students under the direction of the librarian. Music for practice may be rented from the library upon the payment of a small extra fee.

Tuition must be paid in advance. No tuition will be refunded.

No reduction will be made from the tuition fee for the term, whether the student enters after the opening or leaves before the close of the term.

The expenses for a year at the College depend largely on the taste and habit of the individual. Not including railroad fare, clothing and pocket money, the average necessary expense for a school year of thirty-three weeks is about \$140.00.

General College Regulations.

TERMS AND VACATIONS.

The Academic year embraces a period of thirty-three weeks. The Fall term, comprising fifteen weeks, begins on the 8th of September, and ends about the 22d of December, with a two days' recess at Thanksgiving. Then follows a vacation of two weeks during Christmas time. The Spring term begins on the 5th day of January and ends the third Thursday in May with an intermission of one half week at Easter. See College Calendar for further particulars.

STUDY HOURS AND ATTENDANCE.

Morning devotion is held in the Chapel every school day at 9:45 A. M. Prayer meetings are held every Saturday evening. These exercises are conducted both in the Swedish and English languages by the President or some of the other professors appointed by him. Attendance at morning devotion is obligatory for every student in any department.

The day is divided into recitation periods of forty and sixty minutes. Recitations occur from 8 A. M. to 4:20 P. M. The bell rings for study at 7 P. M., and for retiring at 10 P. M.

Strict attention to recitation and study hours is expected. No noise, disturbance, or playing is allowed in the buildings or on the campus during these hours. Students are expected to remain in their own rooms during study hours.

Absences from recitations and chapel will be marked unexcused, unless a petition giving the reasons for the absence has received the signature of the President and each of the teachers

whose recitation has been missed. All such petitions should whenever it is possible, be presented before the absence occurs, and never later than one week thereafter.

Every unexcused absence from recitation or chapel reduces the student's standing in deportment by one per cent. Ten unexcused absences in one term make the student's name liable to be dropped from the College roll.

SPECIFIC REGULATIONS.

Students are expected to abstain from the use of intoxicating liquors, tobacco, profane and unbecoming language, from card, and billiard playing, from visiting saloons and theatrical plays; since an indulgence in these things will advance neither their mental nor moral standing.

Students are prohibited from rooming and boarding at places not approved by the authorities; and a change of rooms and board during the school year is not allowed without the approval of the President of the institution.

Non-resident students under age are obliged to secure permission from their parents or guardians to room and board in places other than the College buildings.

Leave of absence must be obtained for a longer or shorter stay from the institution during the term, and upon leaving the President or Registrar must be notified.

LADIES' HALLS.

For the accommodation of lady students preferring a home under the direct supervision of the authorities, the buildings known as South and North Halls are equipped and furnished. Visits of either sex to the private rooms of the other are prohibited. A reception room is at the disposal of the lady students. All the lady students of the institution are under the supervision and direction of the Lady Principal.

Examinations and Degrees.

Regular class examinations, both oral and written, are held at the close of each term, and promotions and grades are based on the term and examination averages. The student is conditioned in studies in which he fails to attain an average of 70 on the scale of 100.

The final examinations of the Senior class covering the whole course of the Senior year are held during the third week previous to commencement week. These examinations are held in the presence and are subject to the inspection of the Committee on Examinations appointed by the Board.

A student who absents himself from any of the class examinations is conditioned in those subjects, and will be permitted to enter the next class only as a provisional student, with two months' time to make up conditions.

No one can enter a class as a regular student, who is conditioned in more than three subjects, nor will he be allowed to carry the same conditions more than one year. Examinations for removing such conditions are held at the close of September and October, and at such other times as the teacher may designate.

Any student having carried conditions to a greater number or for a larger period than the regulations allow must take up again said subject or subjects in which he is conditioned with a class pursuing the subject or subjects.

Class testimonials containing the student's standing and deportment are given him or sent to his parents or guardians at the end of each term.

The school year closes with the usual commencement exer-

cises, for which speakers are chosen from the Senior class of the College department. The Swedish and English languages are used. On this occasion degrees are publicly conferred upon the graduates of all departments and diplomas are presented.

The degree of BACHELOR OF ARTS (A. B.) is given to students who have completed the regular college course.

The degree of MASTER OF ARTS (A. M.) may be conferred three years after graduation on any Bachelor of Arts who has passed his graduate period in collegiate or professional study and practice, or who shall submit to the Faculty a satisfactory literary, philosophical, or scientific paper.

The degrees of BACHELOR OF ACCOUNTS (B. Accts.), MASTER OF ACCOUNTS (M. Accts.), and BACHELOR OF MUSIC (B. Mus.), are conferred in accordance with the requirements of the Commercial department and the Conservatory of Music.

Library and Reading Room.

DR. J. S. CARLSON, LIBRARIAN.

The library consists at present of six thousand nine hundred and twenty-nine bound volumes and about two thousand pamphlets. One hundred and fifty volumes have been added during the year. The library contains a good collection of standard works in history, biography, travel, fiction, poetry, religion, philosophy, science, the leading encyclopedias, dictionaries and atlases, and other works of reference. These have been selected with a view to broaden the scope of the work done both by teachers and students.

The library is open every Monday and Thursday, when books and magazines are issued to students and officers of the institution under the rules of the library. The standard reference books are accessible at all hours of the day.

The library room is also used as a reading room, and is supplied with many of the leading periodicals and newspapers of the day—dailies and weeklies. These may be read at all hours, free of charge.

The following newspapers have been sent gratuitously to the reading room:

St. Peter Tribune, St. Peter Herald, St. Peter Journal, St. Peter Free Press, Buffalo Gazette, Minnesota Stats Tidning, Augustana, Sv. Am. Posten, Sv. Folkets Tidning, Minneapolis Vekoblad, Minnesota Sv. Tribun, Vårt Hem, Hemlandet, Sv. Tribunen, Fosterlandet, Sv. Journalen, Kirketidende, Bethany Messenger, Vårt Land, Nya Pressen, Svithiod, Svenska Amerikanaren, The Lutheran, The Workman, The Lutheran Observer, Musical Record, The Pennsylvanian, Lutheraneren, Ungdomens Ven, Österns Hårold.

To all donors, whether of books, periodicals or newspapers, we return our hearty thanks. Contributions of books, papers or money by the friends of the institution are earnestly solicited. We need additional works in history, English and Swedish literature; and on arts and sciences, pedagogics and missions.

Museum.

DR. J. P. UHLER, CURATOR.

The museum of the College affords illustrative material for the study of Geology and Biology. The collection is mostly of a synoptical character and is used for class work.

The Natural History cabinets contain an illustrative collection of type fossils, rocks and minerals. The zoological section contains mounted specimens of mammals, birds, reptiles, and fishes, as well as collections preserved in alcohol. The botanical section consists of many hundred specimens gathered from all parts of the United States and representing abundantly the Minnesota flora.

There are also beginnings in ethnographic and numismatic collections.

A branch library is kept in connection with the museum for the convenience of the classes and persons engaged therein.

Laboratories and Apparatus.

Laboratories are equipped for general work in chemistry, physics, and biology. Individual tables are provided and supplied with apparatus and material for student work. The entire outfit is designed to lead the student to employ scientific methods of observation.

New and improved apparatus was added during the past year, augmenting the previous supply and facilitating the efficiency of the work.

Five first-class compound microscopes and dissecting appliances were added to the biological apparatus. Valuable additions have been secured for experimental work in physics.

The mathematical cabinet contains a transit with vertical and horizontal limbs for angular measurements, a chain, rod and pole; mathematical blocks of various designs, and globes.

For astronomical work several telescopes and planispheres, charts, and maps are supplied.

College Organizations.

There are two literary societies, the PHILOMATHEAN and the LITERARY CIRCLE, which meet every Friday evening. These afford the students valuable opportunities for improvement in writing and extemporaneous speaking, and for acquiring familiarity with the proper government and conduct of deliberate assemblies. The exercises at the regular weekly meetings consist of recitations, readings, debates, criticisms, essays, orations, and vocal and instrumental music. Appropriate public entertainments are occasionally given by each of the societies. The society work of students is recognized by the faculty, and may be accepted as equivalent to required class work of similar character, if approved by the teachers in charge. Besides these societies there are the following literary organizations: THE LINCOLN DEBATING CLUB (Sophomore) meeting bi-weekly; THE FRANKLIN DEBATING SOCIETY (Freshman) holding bi-weekly meetings; THE LYCEUM (Third class) with weekly meetings; THE ADOLPHI (First class) meeting every week.

THE MISSIONARY SOCIETY, organized in 1892, is maintained by the students, professors, and others interested, for the purpose of studying and discussing missionary topics. Meetings are held on the last Saturday of every month during the school year. During commencement week, a public missionary festival is held, and addresses are made by speakers especially invited by the society for the occasion.

THE HAYDN MUSICAL SOCIETY is a valuable auxiliary to students of the Conservatory of Music in preparing them for an easy and graceful appearance in public and offering them an opportunity to study the History of Music, Composition, and kindred subjects. In general its aim is to promote literary culture and develop a taste for choice and classical music. Its meetings are held semi-monthly.

AN AGASSIZ NATURAL HISTORY ASSOCIATION consisting of students and others interested in the study of sciences has been organized during the year. At the meetings, which are held monthly, various topics of a scientific nature are taken up and considered. Any one interested in the study of the sciences is eligible to membership.

THE GUSTAVUS ADOLPHUS JOURNAL is published semi-monthly alternately in the Swedish and English languages by the students of the institution.

Voluntary musical organizations are :

THE COLLEGE BAND, twenty-two pieces, Dr. R. Lagerstrom, director.

THE COLLEGE ORCHESTRA, fifteen instruments, Dr. R. Lagerstrom, director.

THE AEOLIAN OCTET of eight voices, J. P. Magnusson, leader.

THE IDUNA OCTET, eight voices, D. T. Sandell, leader.

THE SCHUMANN LADIES QUARTET, Miss Esther Carlson, leader.

THE CIRCLE CORNET BAND, five pieces, A. Hegstrom, leader.

The Alumni Association.

This association was organized by the first graduating class in 1890. Its object is to cultivate friendly relations among the alumni and to promote the interests of their Alma Mater.

Meetings for the transaction of regular business are held each year. Every fifth year there is a reunion of alumni. The first meeting of this kind was held at the commencement of 1895.

The present officers are the following :

President, Henry N. Benson, Esq., St. Peter.

Secretary-Treasurer, Mr. Edw. L. Erickson, St. Peter.

Corresponding Sec., Miss Anna A. Johnson, Vicksburg.

EXECUTIVE COMMITTEE.

Rev. E. O. Stone, Minneapolis.

P. M. Magnusson, Ph. D., St. Cloud.

Mr. A. Tofft, St. Paul.

Employment.

The institution does not positively promise to secure positions for its graduate or undergraduate students, but will do all in its power to secure permanent as well as temporary employment.

There is an increasing call for students from this institution to teach in the parochial and public schools of this and surrounding states. Diligent and conscientious students of proper qualifications are assigned to suitable places by the Executive Committee of the Minnesota Conference.

No student will be appointed or recommended to teach Swedish parochial schools, or to preach in any Swedish speaking congregation, or be recommended to the Theological Seminary at Rock Island, unless he has taken the Swedish studies and passed the requisite examinations.

Suggestions.

1. Secure a testimonial from your pastor or other responsible person, and a letter of regular dismissal from the institution you last attended.

2. Bring any text-books you have as they may be used for reference.

3. Bring bedding, towels, etc.

4. Come promptly at the opening of the term and arrange to remain to the end.

5. Write to the president for any information not contained in this catalogue.

All correspondence will receive prompt attention.
